## About these fees and charges

This leaflet lists the standard fees and charges for International Payments and Travel Funds provided by the Commonwealth Bank.

The Bank reserves the right to vary the amounts shown in this leaflet. Where the Banking Code of Practice applies, variations will be notified to customers by advertisement in a leading daily newspaper in each State, or in writing to affected customers, no later than the day on which the variation takes effect.\*

All fees and amounts are quoted in Australian dollars and include GST where applicable.

\* If we believe a change is unfavourable to you, then we will give you prior notice of at least 30 days. We may give you a shorter notice period, or no notice, of an unfavourable change if we believe doing so is necessary for us to avoid, or to reduce, a material increase in our credit risk or our loss.

## International Money Transfers Sent

### International Money Transfers (IMTs) sent using NetBank or the CommBank app

The Bank will pay any correspondent bank or payment agent fees when you send an IMT in any currency, as long as the originating account currency is different to the payment currency (cross-currency IMT) e.g. using an AUD account to send a payment in USD.

This does not include charges by the beneficiary's bank, which may have their own processing fees.

### IMTs sent using CommBiz

The option to pay an additional fee to cover charges by correspondent banks or payment agents is available for same-currency International Money Transfers (IMTs) sent from a Foreign Currency Account in any of the currencies listed in the table below. This option is not available in NetBank or the CommBank app. This additional fee is payable in Australian dollars (AUD).

Currency	Additional Overseas Banks Fee (AUD)
EUR	\$33.00
GBP	\$17.00
NZD	\$17.00
USD	\$37.00

The Bank will pay the correspondent bank or payment agent fees for cross-currency IMTs, except IMTs in JPY.

This does not include charges by the beneficiary banks, which may have their own processing fees.

### Sending an IMT in Branch

The Bank will pay any correspondent bank or payment agent fees when you send an IMT in any currency, as long as the originating account currency is different to the payment currency (cross-currency IMT) e.g. using an AUD account to send a payment in USD.

If you use a Foreign Currency Account to send a same-currency IMT in any of the currencies listed in the table above, then you have the option to pay a separate upfront fee to cover the correspondent bank or payment agent fees.

This does not include charges by the beneficiary's bank, which may have their own processing fees

You can find more information on how we use correspondent banks and their fees in our **International Payments Guide**.
