

Use this dashboard to compare the Essential Super Lifestage 2005–09 option with other MySuper products.

MySuper Dashboard 1 November 2025

Return target	Return target ¹ for 2025–2034 is CPI plus 3.4% per annum, after fees and taxes. Future returns cannot be guaranteed. This is the target return that this product aims at delivering.													
Return	The average return from 1 July 2022 to 30 June 2025 was 12.88% pa. Past performance is not a reliable indicator of future performance.													
Comparison between return target and return	<div>Essential Super Lifestage 2005–09 option</div> <table><thead><tr><th>Year</th><th>Past 1-year return</th><th>Return target</th></tr></thead><tbody><tr><td>2023</td><td>9.56%</td><td>6.5%</td></tr><tr><td>2024</td><td>15.26%</td><td>6.5%</td></tr><tr><td>2025</td><td>13.89%</td><td>6.5%</td></tr></tbody></table>		Year	Past 1-year return	Return target	2023	9.56%	6.5%	2024	15.26%	6.5%	2025	13.89%	6.5%
Year	Past 1-year return	Return target												
2023	9.56%	6.5%												
2024	15.26%	6.5%												
2025	13.89%	6.5%												
Level of investment risk ²	Risk label	Estimated number of negative annual returns over any 20-year period												
	High	4 to less than 6												
Statement of fees and other costs ³	\$380.00 per year Fees and other costs for a member with a \$50,000 balance throughout the year.													

1 Return target based on BlackRock Investment Institute’s Capital Market Assumptions over the 10-year time horizon. An average growth in CPI of 2.25% p.a. is assumed based on the mid-point of the Reserve Bank of Australia (RBA) target band. To assist with the comparison between different MySuper funds, the method for calculating the Return target is prescribed in MySuper legislation. The Return targets may be different to the investment objectives outlined in the Product Disclosure Statement (PDS) and Reference Guides available at commbank.com.au/essentialinfo.

2 **Level of investment risk**
The level of investment risk is the Trustee’s estimate of the risk of negative investment returns over a 20-year period. It is not a complete assessment of all forms of investment risk. For instance, it does not detail what the size of a negative return could be or the potential for a positive return to be less than what a member requires to meet their objectives. Further, it does not take into account the impact of administration fees and tax on the likelihood of a negative return. You should ensure you are comfortable with the risk and potential losses associated with your investment options. The risk measures are calculated in line with the guidelines in the Financial Services Council (FSC) Guidance on Standard Risk Measure Guidance Paper for Trustees’ dated July 2011. This rating is based on the asset allocation benchmark of the fund at the date of the dashboard and does not take into account future movements of this benchmark.

3 **Statement of fees and costs**
This amount includes investment fees and costs, administration fees and costs and transaction costs, but excludes buy-sell spreads, activity fees, insurance fees and costs.

Prospective financial information
The above prospective financial information is:

- a) predictive in character,
- b) may be affected by inaccurate assumptions or by known or unknown risks and uncertainties, and
- c) may differ materially from results ultimately achieved.

Further information
